

TEALS Program

Spark excitement in computer science

The Microsoft Philanthropies Technology Education and Learning Support (TEALS) program partners with high schools to build and grow sustainable computer science (CS) programs. TEALS supports student enrollment, engagement, retention and persistence in CS by partnering with fellow CS education advocates to expand CS interest beyond the classroom.

Over **95,000** students served by TEALS since 2009

Over **500** schools are currently partnered with TEALS

80% of TEALS students say CS allows them to be creative.*

**2021-22 TEALS student survey*
